

Angelo Verlain

Shema Angelo Verlain. **vixalien** on the Internet.

Experienced Web Developer with over 5 years of experience with tinkering with, building and enhancing Web interfaces. Top virtues are minimalism and love.

PROJECTS

RwarriMS — An Employee Management System

RwarriMS, originally built for [RWARRI](#), is an Employee Management System to keep track of their Employees, it enables application and management of leaves, payment requests and other E-Payment and E-Performance tasks, check-in at work, track daily tasks and so much more on any platform. *Built with NextJS and Typescript and Javascript. Uses MongoDB as a Database.*

Explosiv — A static JSX site generator

[Explosiv](#), is a static site generator for JSX content. It was built to allow small sites (or even large ones) to generate their HTML easily and fast while preserving some React-like syntax (JSX). *Written in Vanilla Javascript in NodeJS.*

vixalien.io — A personal blog

[vixalien.io](#) or simply [dotio](#), is my personal website, a collection of posts and my projects. *Written in Explosiv on NodeJS.*

A list of my other public projects are at [Github](#)
